{i} to a single consumer either from a distributing main or immediately from the licensee's premises; or

(ii) from a distributing main to a group of consumers on the same premises or on adjoining premises supplied from the same point of the distributing main;

(0)

(p)

(q)

G)

(s)

“tampering” or “tamper” includes interfering or creating hindrance in flow or metering of electric power by unauthorized entry of access into metering system or transmission and distribution lines either by breaking the seals or damaging or destructing the same or in any manner interfering with the electric meter or transmission line or distribution line or interfering with its original condition;

“tariff means the rates, charges terms and condition for generation of electric power, transmission, inter-connection, distribution services and sales of electric power to consumers by a licensee;

“transmission” means the ownership, operation, management or control of transmission facilities;

“transmission facilities’ means electrical transmission facilities imcluding electrical circuits, transformers and sub-stations operating at or above the minimum transmission voltage; and

“works” includes electric supply-lines and any buildings, machinery or apparatus required to supply energy.

462H. Abstraction or tampering etc. with transmission.—(!) Any person who,—

(a)

(b)

dishonestly taps, makes or causes to be made any connecticn with overhead, underground or under water lines or cables, or services lines, electric supply-line or transmission facilities of a licensee for transmission of electric power services, or any other related system and equipment, as the case may be, so as to abstract, use or consume electricity without passirg through the electric meter is said to cause abstraction; or

willfully tampers or attempts to tamper with service ling, electric supply-line or transmission facilities for transmisshion of electric power, is said to cause tampering.

(2) Any person who causes or abets in causing abstraction or commits or abet in committing tampering with transmission of electric power for the purpose of,—

(a)

(b)

(c)

theft of electric power; or

disrupting supply of electric power; or

illegal transmission of electric power services,

shall be punishable with rigorous imprisonment which may extend to three years or with fine which may extend to ten million rupees or with

both.

4621. Abstraction or tampering etc., with distribution or auxiliary.) Any person who,—

(a)

{b)

dishonestly taps, makes or causes to be made any connection with overhead, underground or under water lines or cables, or service lines, electric supply-line or distribution facilities of a licensee for distribution of electric power services so as to abstract, use or consumer electricity without passing through the electric meter is said to cause abstraction; or

willfully tampers or attempts to tamper with service line, electric supply-line or distribution facilities for distribution of electric power services, or any other related system and equipment, as the case may be, for distribution of electric power services is said to cause tampering with auxiliary or distribution of electric power.

(2) Any person who causes or abets in causing abstraction or commits or abets in committing tampering with distribution -of electric power for the purpose of,—

(a)

(b)

(c)

theft of electric power; or

disrupting supply of electric power; or

illegal distribution of electric power services,

shall be punishable with rigorous imprisonment which may extend to three years or with fine which or may extend to three million rupees or

with both.

462).

Interference, improper use or tampering with electric

meter by domestic consumer, etc.—Any person being the domestic consumer who,—

(a)

(b)

(c)

- qd)

(e)

(f)

unauthorizedly connects any electric meter with any electric line through which electricity is supplied by a licensee or disconnects the same from any such electric line without the consent of the licensee; or

unauthorizedly reconnects any electric meter with any electric line or other works being the property of a licensee when the said electric line or other works has or have been cut or disconnected without the consent of the licensee; or

tampers with an electric meter, installs or uses a tampered electric meter, current reversing transformer, loop connection or any other device or method, contrivance or artificial means which interferes with accurate or proper registration, calibration or metering of electric current or otherwise results in a manner whereby electricity is stolen or wasted; or

uses the energy supplied by a licensee under one method of tariff in a manner for which higher tariff is in force; or

uses energy supplied by a licensee in a manner prejudicial to the safety or efficient working of the electric supply-line or deals with it in a manner so as to interfere with efficient supply of energy to other consumers, or persons; or

abets in the commission or any of the acts mentioned in clauses (a) to (e),

in order to commit theft of electric power, or dishonestly abstract, consume or use electric power or unauthorized distribution or supply of electric power shall be punishable with imprisonment for a term which may be extend to two years or with fine which may extend to one million Rupees or with both. .

462K.

Interference, improper use of tampering with electric  
meter by industrial or commercial, etc.—Any person, being industrial  
or commercial who,—

(a) .

(b)

(c)

(d)

(e)

(g)

unauthorizedly connects any electric meter with any electric line through which electricity is supplied by a licensee or disconnects the same from any such electric line without the consent of the licensee; or

unauthorizedly reconnects any electric meter with any electric line or other works being the property of a licensee when the said-electric line or other works has or have been cut or disconnected without the consent of the licensee; or

tampers with an electric meter, installs or uses a tampered meter, current reversing transformer, loop connection or any other device or method, contrivance or artificial means which interferes with accurate or proper registration, calibration or metering of electric current or otherwise results in a manner whereby electricity is stolen or wasted; or

uses the energy supplied by a licensee under one method of tariff in a manner for which higher tariff is in force; or

lays, or causes to be laid, or connects up any works for the purpose of communicating with any other works belonging to a licensee without consent; or

uses energy supplied by a licensee in a manner prejudicial to the safety or efficient working of the electric supply-line or deals with it in a manner so as to interfere with efficient supply of energy to other consumers, persons; or

abets in the commission of any of the acts mentioned in clauses (a) to (f),

in order to commit theft of electric power, or dishonestly abstract, consume or use electric power or unauthorized distribution or supply of electric power shall be punished with imprisonment which may extend to three years or with fine which may extend to six million rupees or with

both.

Interference, improper use or tempering with electric

meter by agricultural consumer, etc.—Any person being agricultural consumer who,—

(a)

(b)

(c)

(d)

(e)

(f)

(g)

unauthorizedly connects any electric meter with any electric line through which electricity is supplied by a licensee or disconnects the same from any such electric line without the consent of the licensee; or .

unauthorizedly reconnects any electric meter with any electric line or other works being the property of a licensee when the said electric line or other works has or have been

cut or disconnected without the consent of the licensee; or

tampers with an electric meter, install or uses a tampered meter, current reversing transformer, loop connection or any other device or method, contrivance or artificial means which interferes with accurate or proper registration, calibration or metering of electric current or otherwise results in a manner whereby electricity is stolen or wasted; or

uses the energy supplied by a licensee under one method of tariff in a manner for which higher tariff is in force; or

lays, or causes to be laid, or connects up any works for the purpose of communicating with any other works belonging to a licensee without consent; or

uses energy supplied by a licensee in a manner prejudicial to the safety or efficient working of the electric supply-Jine or deals with in a manner so as to interfere with efficient supply of energy to other consumers, persons; or

abets in the commission of any of the act mentioned in clauses (a) to (f),

in order to commit theft of electric power, or dishonestly abstract, consume or use electric power or unauthorized distribution or supply of electric power shall be punished with imprisonment which may extend to two years or with fine which may extend to two and half million rupees or

\_ with both.

462M.

Damaging or destroying or destructing the transmission

lines, distribution lines, electric meter etc.—Any person who damages, destroys or destruct any transmission lines, distribution lines, electric meter, apparatus, equipment, or wire or causes or allows any of them to

be so damaged, destroyed or destracted by an act of subversion by explosive material or in any other manner so as to disrupt the supply of electric power services or maliciously causes electric power services to be wasted or diverted or cuts off or injures or attempts to cut off or injure any transmission line or distribution line or a service line or electric supply line shall be punished with rigorous imprisonment which may extend to seven years and with fine which shall not be less than three million rupees.

362N. Recovery of outstanding amounts from persons involved in section 462H to 462M offences.—Any person said to commit or to have committed the offence as mentioned in section 462H to 462M shall also be liable to pay an amount equivalent to the financial loss caused to the Government or the distribution companies concerned. Any such outstanding amount of penalties or fines imposed under this Chapter shall be recoverable as arrears of land revenue.

4620. Cognizance.—(1) The Court shall try an offence punishable under this Chapter.

(2) Notwithstanding anything contained in the Code of Criminal Procedure, 1898 or any other law for the time being in force, the Court shall not take cognizance of an offence under this Chapter except on a complaint made, with reasons to be recorded in writing along with full

particulars of the offence committed under this Chapter, by duly |

authorized officer (not below Grade 17) of the Government or the distribution company, as the case may be.

462P. Overriding effect—The provisions of this Chapter shall have effect notwithstanding anything contained in any other law for the time being in force.”.

3. Amendment of Schedule II, Act V of 1898.—In the Code of Criminal Procedure, 1898 (Act V of 1898),-

(a) in Schedule II, in column J, after section 462F and the corresponding entries relating thereto to in columns, 1,2,3,4,5,6,7 and 8, the following shall be inserted, namely:—

“CHAPTER XVII B

OFFENCES RELATING TO ELECTRICITY

Rigorous imprisonment  
for three years or with  
fine up to ten million  
rupees or with both

Rigorous imprisonment  
for three years or with  
fine up to three million  
rupees or with both,

Imprisonment up to two  
years or fine up to one  
million rupees or with

for seven years and with  
fine not less than one  
million rupees.
