(ii) the want of light, air, ventilation or proper conveniences in such local area, or part, or

(iii) any other sanitary defects in such local area or part, the trust may pass a resolution to the effect that such local area or part is in an insanitary locality and that “a general improvement scheme” ought to be framed in respect of such locality and may then proceed to frame such a scheme.

(2) Whenever the trust declares any local area or part thereof to be an insanitary locality within the meaning of this section, and is of opinion that having regard to the comparative value of the buildings in such local area or part and the sites on which they are erected it is undesirable to frame a general improvement scheme and the most satisfactory method of dealing with the local area or (any) part thereof is “a rebuilding scheme,” it may proceed to frame such a scheme, which may provide for the reservation of streets and the enlargement of existing streets; the relaying out of the sites of the local area or part thereof upon the streets so reserved or enlarged; the demolition of existing buildings and their appurtenances upon such sites; and the erection of buildings in accordance with the scheme.

(2) Whenever it appears to such trust that for any of the purposes mentioned in sub-section (1) within its local areas or part thereof it is expedient to provide for the ultimate widening of any existing street by altering the existing alignments to improved alignments to be prescribed by the trust, but that it is not expedient immediately to acquire all or any of the properties lying within the proposed improved alignments, the trust, if satisfied of the sufficiency of its resources, may pass a resolution to that effect, and forthwith proceed to frame a "deferred street scheme" prescribing an alignment on each side of such street.

24. (1) The trust may, for the purpose of development of any locality within the municipal limits contained in its local area, prepare "a development scheme", and

(2) Such trust, may, if it is of opinion that it is expedient and for the public advantage to promote and control the development of and to provide for the expansion of a municipality in any locality adjacent thereto, within the local area of such trust prepare "an expansion scheme."

(3) "A development scheme" or "an expansion scheme" may provide for the lay-out of the locality to be developed, the purposes for which particular portions of such locality are to be utilized, the prescribed street alignment and the building line on each side of the streets proposed in such locality, the drainage of insanitary localities and such other details as may appear desirable.

All expenses incurred by the '[Provincial Government] or by the municipal committee in the exercise of the powers conferred upon them by this section shall, in the first instance, be paid out of provincial revenues, but the amount so spent shall be recoverable from the trust as if it were a 2[debt due to the Provincial Government], and the "Provincial Government] may attach the rents and other income of the trust. The provisions of section 72 shall also apply to all moneys so paid.

26. Whenever the trust deems it necessary that accommodation should be provided for persons who are displaced by the execution of any scheme under this Act, or are likely to be displaced by the execution of any scheme, which it is intended to submit to the '[Provincial Government] for sanction under this Act it may frame "a rehousing scheme" for the construction, maintenance and management of such and so many dwellings and shops as ought, in the opinion of the trust, to be provided for such persons.
